

Spec sheet format sample

This is the structure we issue for every SKU on request. The layout below is real; the values are placeholders. Send us your target product and we will return the same format populated with actual measurements for that item.

ILLUSTRATIVE SAMPLE — VALUES ARE PLACEHOLDERS

Dimensions, weights and pricing shown here are examples of the format only. They do not describe a catalogue product and must not be used in quotations, listings or purchase orders. Actual per-SKU specification sheets are issued on request and supersede this sample.

1. Identification

Sample SKU	SMG-### (illustrative)
Product family	Carbon steel wok / tri-ply fry pan / cast iron skillet
Spec sheet issue date	YYYY-MM-DD
Prepared for	Buyer company / program name

2. Construction & materials

BODY	
Base material	e.g. carbon steel / 304 stainless / aluminium alloy / cast iron
Wall thickness	e.g. 2.8 mm ± 0.1 mm (full-clad)
Core thickness (clad products)	e.g. 1.6 mm aluminium
Forming method	spun / stamped / pressed / gravity die cast
SURFACE	
Interior finish	e.g. factory-seasoned / 3-coat PTFE system / ceramic non-stick
Exterior finish	e.g. satin polish / induction-ready magnetic base
Coating system layers	e.g. primer + mid + top, cured at ### °C
HANDLES & FITTINGS	
Handle material	e.g. riveted stainless / bakelite / wood, heat rating
Lid	e.g. tempered glass with stainless rim / steel / none

3. Dimensions & performance

Parameter	Value (placeholder)
Diameter / capacity	e.g. 32 cm · 4.5 L
Product weight	e.g. 1.8 kg net
Cooktop compatibility	gas / electric / induction (magnetic base required for induction)
Recommended max temperature	e.g. oven safe to ### °C

Parameter	Value (placeholder)
Finish / colour options	<i>list of available options</i>

4. Packaging

Item	Value (placeholder)
Retail packaging	<i>colour box / hangtag / sleeve / polybag, with artwork dimensions</i>
Country of origin marking	Applied to every retail unit and outer carton
Units per carton	<i>e.g. 6 pcs</i>
Carton dimensions / weight	<i>e.g. 000 × 000 × 000 mm / 00.0 kg gross</i>
Carton grade & drop test	<i>e.g. 5-ply export grade, per agreed drop standard</i>
Container loading	<i>units per 20' / 40' HQ, palletised or loose</i>

5. Commercial

Item	Value (placeholder)
MOQ	<i>e.g. ### pcs per SKU, negotiable on a first order with a reorder plan</i>
Price basis	<i>FOB named port</i>
Sample lead time	<i>e.g. 7–10 days plus transit</i>
Production lead time	<i>e.g. 30–45 days after artwork and deposit approval</i>
Payment terms	<i>to be agreed</i>

6. Compliance status

Document	Status (placeholder)
FDA food contact	<i>report reference and date to be confirmed per SKU</i>
California Prop 65	<i>declaration reference to be confirmed per SKU</i>
Mill certificate (MTR)	<i>available per production run where 304 is specified</i>
Third-party test report	<i>report number and issuing laboratory to be confirmed</i>

How to use this format. Send us any product photo, reference listing or drawing and state the sizes you need. We will return the same six sections populated with real measurements, real packaging figures and a named compliance reference for that SKU — the version you can quote from.
